## PROJECT MANAGEMENT

Project management is the main priority of ProfInstall's activity and development. We constantly improve the internal processes of managing deadlines, budgets and quality of work performed. We create conditions for training and retraining for our project managers.

Company certification ISO9001

## FINANCIAL STABILITY

ProfInstall provides its financial statements, which shows a sufficient level of the company's assets and working capital to perform full-cycle work and manage budgets for project implementation. Successful contracts and feedback, including those from foreign-invested companies, which usually scrutinize their counterparties for financial soundness, is the best proof. Also, to secure contracts, ProfInstall has the ability to work with bank guarantees at the request of the Customer.

Experience with foreign companies

# OUR ADVANTAGES

## OPERATION TRANSPARENCY

We understand the importance for our customers to transparently monitor and manage their budget. Therefore, ProfInstall keeps transparent and complete records for each project in order to be able to provide analytics at any time in any context, which could be requested by our customer for their project.

**Licenses and  
permits for the  
performance of  
works**

## EXPERIENCE

Relevant experience of ProfInstall is evidenced by letters of recommendation from our clients and questionnaires, which according to the company's processes is a mandatory procedure at the project closure stage. Among our clients are both domestic companies with high requirements for contractors' qualifications (Clinic of Reproductive Medicine Prof. Feskova O., Lekhim, Borshchahiv Chemical Plant, etc.), along with international companies with production facilities in Ukraine (Nestle, Procter&Gamble, Phillip Morris, JTI, Amcore, PepsiCo, Lactalis)

# OUR CONTRIBUTION TO THE FIGHT FOR UKRAINE

- Since the beginning of the war, the company's work has been paralyzed
- Workers in Kharkiv and Kyiv prepared food for bomb shelters
- Humanitarian aid was delivered by the corporate cars
- Workers in Lviv sorted out humanitarian aid in distribution centers
- 7 employees joined the ranks of the Territorial Defense
- 4 co-workers expressed a desire to defend Ukraine at the front and joined the Armed Forces of Ukraine. The company purchased equipment for employees and their crews
- In order to provide financial support to employees, we emphasized the resumption of installation work at enterprises that are not in the zone of active hostilities
- Building relations with international funds to work on the restoration of infrastructure in Ukraine

# OUR TEAM

Due to individual approach, technically competent solution and efficient work, we always provide the expected outcome for each customer. To become an engineering company №1 in Ukraine our team of professionals constantly evolves and improves.

*Our engineering company ProfInstall met year 2022 full of plans in terms of development and operational efficiency increase. With successful experience in building supervision for the most demanding Ukrainian and overseas customers, with our own staff of highly qualified design engineers and construction and installation department, we were ready to scale up and conquer leadership on the building market of Ukraine.*

*But 24th of February 2022 made significant adjustments... We had to run, help, protect, support both each other and our countrymen, our Ukraine!*

*As soon as we recovered from what happened, no later then in April we renewed working on those objects that are not in the zone of active combat actions, and contemplated on how we can be useful for our Ukraine in the best way here and now.*

*This is how the ProfInstall ReNew unit was born, which mission now is to renew the infrastructure of Ukraine. With successful experience in projecting and construction and installation work in pharmaceutical industry and health facilities under our belt, we feel that now we can be the most helpful here, in Ukraine, helping to rebuild health and education facilities that were damaged by Russian aggression in Ukraine.*
